# SAVE THE DATE

Larry Cohen is coming to  
Winnipeg!

July 2 & 3, 2020

Bridge Manitoba will be hosting a 2-day lecture series with Larry Cohen. Larry is a 25-time national champion who is considered to be among the top 10 living most influential ACBL players. Mark the date in your calendar and watch for details coming for this exciting once in a lifetime opportunity. See what 4 of our members who have seen him have to say about their experience with Larry.

Several years ago I attended Larry Cohen's Bridge lessons. His easy going, friendly manner made the 2 hour plus classes most enjoyable and his Vu-graph lectures as well as instructive lesson deals were a constructive, positive method to get his lessons across. I will be attending his Winnipeg 2 day lecture series in July 2020.

Elaine Golumbia

Humor, relevant sample hands, and great Powerpoint presentations. Larry Cohen speaks to players of all levels. I attended his lectures 5 days in a row, and enjoyed every one. New ideas were presented, and old techniques reinforced. Larry is a bridge teacher not to be missed. As a former teacher and high school principal, I found Larry to be as gifted a teacher as I've ever encountered.

Jerry Cohen

As an intermediate bridge player, I found Larry Cohen's lessons clear, and illustrated with interesting and relevant examples. I observed that his audience included bridge players of all levels: newer players, and North American champions. Everyone enjoyed his lessons. He had the knack of speaking to everyone. He was fun, and easy to follow. I look forward to hearing him again.

Susan Cohen

I took a series of Larry Cohen's daily bridge lectures. His content was thorough and he answered all questions. This enabled any student from novice to expert to get the most from his lectures. A great lecture series from a person widely recognized from his playing record as one of the world's greatest players. Few, if any, can both play and teach as well. A can't miss 2 days.
